# Preface

THIS INDEX to the Benjamin Harrison Papers is a direct result of the wish of the Congress and the President, as expressed by Public Law 85-147 approved August 16, 1957, and amended by Public Law 87-263 approved September 21, 1961, to arrange, index, and microfilm the papers of the Presidents in the Library of Congress in order "to preserve their contents against destruction by war or other calamity," to make the Harrison and other Presidential Papers more "readily available for study and research," and to inspire informed patriotism. An appropriation to carry out the provisions of the law was approved on July 31, 1958, and actual operations began on August 25.

The microfilm of the Harrison Papers became available in 1964. Positive copies of the film may be purchased from the Chief, Photoduplication Service, Library of Congress, Washington, D. C. 20540. A positive print is available for interlibrary loan through the Chief, Loan Division, Library of Congress.

THE story of the Benjamin Harrison Papers is largely that of Mrs. Harrison's search for a biographer.<sup>1</sup> She became the chief mover in the search shortly after E. Frank Tibbott had to abandon his attempts at a biography shortly after the ex-President's death.<sup>2</sup>

Inquiry about the papers on behalf of the Library of Congress was first made in 1903.<sup>3</sup> Mrs. Harrison had about that time agreed to place the manuscripts at the disposal of John S. Griffith, U. S. Consul General in London, who was to be the official biographer.<sup>4</sup> When Mr. Griffith died a decade later, the biography was unwritten and the papers remained in London.

By December 1914 Mrs. Harrison had retrieved the collection and wrote to Gaillard Hunt requesting him to ask Senator Theodore E. Burton of Ohio to write the biography. While the Senator showed interest in the project, the press of his other duties made it impossible for him to give it the time required.<sup>5</sup> On March 1, 1915, the first group of Harrison papers was deposited in the Library under the restriction that the collection was not to be consulted without Mrs. Harrison's permission. The deposit was converted to a gift on June 2, 1933, at which time the William Henry Harrison Papers were established as a distinct group.<sup>6</sup> The principal group of Benjamin Harrison manuscripts was bound in 181 volumes in 1933.

Mrs. Harrison and the Library continued to cooperate in efforts to organize the collection for the biographer, as well as to locate a writer suitable to the undertaking. John W. Foster, a Secretary of State under Harrison, was approached, as were

Charles Williams, James A. Woodburn, Paul L. Haworth, and others. As early as 1921, Mary Lord Harrison was assisted in her efforts to perfect her husband's collection by Albert T. Volwiler, Harrison Fellow in the Department of History of the University of Pennsylvania.<sup>7</sup> On August 9, 1926, Mrs. Harrison asked Charles Moore, Acting Chief of the Manuscript Division, to give Professor Volwiler access to the Harrison papers and concluded, "He is to write my husband's biography. . . ."

Through the efforts of Professor Volwiler to provide materials for the long-planned biography, other significant additions were made to the collection over the two decades of his intensive and exclusive use of the papers. These included extracts from Elijah W. Halford's diary, kept while he was Harrison's White House secretary; letters of Louis T. Michener, Harrison's campaign manager; Mary Harrison McKee's collection of letters Harrison wrote to his first wife, Carrie S. Harrison, during the Civil War; letters of Robert S. Taylor, Indiana circuit judge; and letters exchanged by Harrison and his closest college friend, John A. Anderson. One of Volwiler's most noteworthy efforts to complete the collection was the Tibbott transcript project. In 1928, at Volwiler's suggestion, Tibbott who had been Harrison's stenographer and private secretary for 12 years, was engaged by the Library to transcribe from his own shorthand notebooks. This he proceeded to do, carefully dictating over 7,000 letters which filled many important gaps in the collection for the years of Harrison's presidency and after, and which are indicated in this index by the abbreviation "TT". Series 15 of the Harrison papers contains part of the correspondence between Volwiler and Tibbott which documents the Tibbott transcript story.

Later Volwiler efforts resulted in the addition to the Harrison collection of the letterbooks and other records of the law firms of Wallace and Harrison, and Harrison and Fishback. Thomas P. Martin, Assistant Chief of the Manuscript Division, called Volwiler the researcher "par excellence" with good reason,<sup>8</sup> for his efforts to improve the Harrison collection also made him instrumental in bringing to the Library the papers of Benjamin F.

\*Grateful acknowledgment is made to the Reverend Harry J. Sievers, S. J., biographer of Benjamin Harrison, who read and commented on a draft of this essay and in other ways contributed to the accuracy of the entries in this volume.

<sup>1</sup> Fuller accounts are found in Sievers' *Benjamin Harrison, Hoosier Warrior* (New York, 1960), second edition, pp. xv-xxiii and in Marcia Wright's article, "The Benjamin Harrison Papers," *Library of Congress Quarterly Journal of Current Acquisitions*, 18 (May 1961), 121-125.

<sup>5</sup> Gaillard Hunt to Mary Lord Harrison, December 15, 1914, Manuscript Division files.

<sup>6</sup> This was done in compliance with Mary Lord Harrison's wishes; see her letter to Herbert Putnam, June 2, 1933, Manuscript Division files. In 1960 the papers of John Scott Harrison were also established as a distinct group.

<sup>7</sup> Mary Lord Harrison to John C. Fitzpatrick, December 21, 1921, Manuscript Division files.

Tracy, Secretary of the Navy under Harrison, of Eugene Gano Hay, a prime mover in Harrison's nomination for the presidency, and of James S. Clarkson, Assistant Postmaster General.<sup>9</sup>

With some regret regarding Volwiler's inability to convert his years of research into a biography and an often-expressed wish that the papers be made available to scholars, Mrs. Harrison requested on April 24, 1945, that the Harrison papers be opened to the public.<sup>10</sup> Mary McKee Reisinger and Benjamin Harrison McKee requested that the separate collection of President Harrison's letters to his first wife during the Civil War also be converted to an unrestricted gift on April 13, 1947.<sup>11</sup> All restrictions relative to use of the combined collections were removed on July 14, 1947.

The long wait for a Harrison biographer ended in 1948 when the Reverend Harry J. Sievers, S. J., began his work with the Harrison Papers, the fruition of which was the publication 4 years later of *Benjamin Harrison, Hoosier Warrior* (Chicago, 1952). A second volume, *Benjamin Harrison, Hoosier Statesman*, appeared in 1959, and a third volume covering the presidential years is in progress. Father Sievers has told the story of both the collection and the search for a biographer in the preface to the second edition of his first volume, previously cited.

The Benjamin Harrison Papers, which number 69,612, cover every aspect of Harrison's life and career: his relations with his family, his college work and fraternal activity, his great love for Carrie Scott Harrison, his service as Brigadier General of the 70th Regiment, Indiana Volunteers, his early law practice, his service as reporter for the Supreme Court of Indiana, his senatorial career, the political buildup to his election as President, and his legal triumph in the Venezuela boundary dispute. It is particularly rich in materials pertaining to the political campaign of 1888, Pension Office problems, and controversial Post Office and Civil Service disputes. In addition to letters, the collection contains speeches, memoranda, petitions, newspaper clippings, scrapbooks, financial records, and miscellaneous items detailing White House social events.

<sup>9</sup> The Harrison Papers were transferred from the Library of Congress late in 1941 to the University of Virginia as part of a program to protect irreplaceable manuscripts from the hazards of war. The papers were returned in the summer of 1944.

## How To Use This Index

The Benjamin Harrison Papers in the Library of Congress are indexed in this volume. These are the papers available in a Library of Congress microfilm reproduction of 151 reels. Benjamin Harrison letters in other manuscript collections in the Library of Congress or elsewhere are not indexed in this volume.

This index to the Harrison Papers is essentially a name index listing names of writers and recipients of letters, alphabetically first and chronologically when the same name appears more than once. It is not a subject index, but speeches, essays, and lectures of President Harrison are indexed under his name.

To find a document, note the series number and the date of the document, then turn to the date of the document in the appropriate series. The reel list is on page vii.

This index was produced by the use of key-punched cards which were sorted and printed mechanically in columns. Some paraphernalia normally found in indexes and calendars had to be abandoned. Many peculiarities of this index are illustrated in the sample entries which follow this explanation.

Names of writers or recipients of letters are arranged alphabetically. A letter not written by or to the President is indexed both by writer and recipient. Corporate entries, other than national organizations, are indexed under geographical locations.

Names in transcripts prepared in 1928 by E. Frank Tibbott, Harrison's secretary, and identified by the symbol "TT" in the column often differ in spelling from that in incoming letters. These variations are readily apparent in the last two sample entries and in numerous entries in the index.

Every page on which any writing appears is included in the page count; thus envelopes, cover sheets, docket entries, endorsements, file numbers, etc., are counted. Notations made by the Library of Congress are of course excluded.

The final or addenda column of the index has been used as a "catchall" for data which cannot be fitting into the closely calculated spacing of the main entry. Documents other than letters are, in each instance, identified in this column,

occasionally by content but more often by form. When a date or a name and date appear in the addenda column, an item is for some reason not in its place in the normal chronological order; for in-

stance, an enclosure filed with its covering letter rather than under its own date.

For information concerning the series arrangement see the description which appears on page 328.

## DESCRIPTION OF THE PAPERS

The papers of Benjamin Harrison (1833-1901), Senator and President of the United States, were deposited in the Library of Congress in 1915 by his widow, Mary Lord Harrison. Many additions were made by Mrs. Harrison both before and after conversion in 1933 of the papers to a gift. The efforts of Albert T. Volwiler during this period brought large additions from other sources. A few additions have been made since that time. Appended to this statement is a complete list of accessions.

The Harrison papers are in 20 series:

*Series 1.* General Correspondence and Related Material. 1787-1912. 181 volumes.

This series consists primarily of correspondence, some of which is in transcript and photostat form. Arrangement is chronological. Within days, two alphabetical orders apply; the first, outgoing letters from Harrison and aides, is arranged by addressee. Where two transcripts are typed on one page, alphabetical arrangement is by the recipient of the first letter. The second alphabetical order is letters received, in which alphabetical determination is by name of sender, whether individual or corporate. Some related material, including essays and speeches, is arranged in the general chronological sequence with letters sent. [*Reels 1-43*]

*Series 2.* Additional Correspondence and Related Items. 1853-1909. 83 manuscripts boxes.

This series contains correspondence omitted from Series 1 and some enclosures to letters in that series. Included is important correspondence for the 1888-89 period, some Tibbott transcripts, invitations, and some legal correspondence. Also included are messages of condolence to Mrs. Harrison and replies to invitations to attend the unveiling in 1908 of the Benjamin Harrison memorial. Docket or file envelopes are interfiled. The arrangement is the same as that of Series 1. [*Reels 43-97*]

*Series 3.* Letter Press Copy Book. 1880-92. 1 volume.

Letters sent by Harrison from December 16, 1880, to May 28, 1888, are generally followed by transcripts. Letters of law partners and Howard Cale, Indianapolis financial

manager, March 13, 1889, to January 2, 1892, are not transcribed. The volume contains an index. [*Reels 97-98*]

*Series 4.* Telegrams. 1888-96. 5 volumes.

These telegrams surround four important political events: the Republican National Convention, June 22-30, 1888; the election, November 2-12, 1888; cabinet formation, February 6-March 6, 1889; and the inauguration. Arranged chronologically and, within days, alphabetically by correspondent. When two telegrams are on the same page, alphabetical arrangement is by the writer of the first telegram. [*Reels 98-99*]

*Series 5.* Social. 1889-92. 2 volumes. 1890-97. 3 manuscript boxes.

One volume is the reception list; the other, dinner and luncheon lists and seating arrangements. Correspondence consists mainly of replies to White House invitations, arranged under the date of the function and alphabetically within that day. Memoranda and lists are filed alphabetically under "Presidential." [*Reels 99-100*]

*Series 6.* Shorthand notebooks. 1884-1901. 127 volumes.

Notebooks of Charles Watson, 1884-86; Alice Sanger, 1888-89; and E. Frank Tibbott, 1889-1901. Letters by Watson and Tibbott transcribed by Tibbott, found in Series 1 and 2. Letters of Alice Sanger and other notes of legal cases, speeches, etc., are not transcribed. [*Reels 100-116*]

*Series 7.* Record of Letters Received at the White House. 1889-93. 6 volumes.

Entries include name of writer, purport, date received, and agency to which the letter was referred. Alphabetical by first initial of surname and, within the alphabetical location, by date. [*Reels 116-117*]

*Series 8.* Speeches. 1878-1901. 6 boxes.

Includes notes, drafts, reading copies, and printed copies of campaign speeches, special messages to Congress, and post presidential lectures and speeches. Arranged chronologically. [*Reels 117-121*]

*Series 9.* Writing. 1895-97. 3 boxes.

Manuscripts of a series of articles written for the *Ladies Home Journal* (December, 1895-May, 1897) entitled "This Country of

Ours." Page proofs of the articles as they appeared in the magazine follow. Arranged after the articles is the revised and supplemented text which formed a book entitled *This Country of Ours* (1897). Manuscripts for book succeeded by galley and page proofs with annotations. [Reels 121-122]

**Series 10.** Legal instruments. 1852-98. 1 box.

Deeds, petitions, agreements, etc., arranged chronologically. [Reels 122-123]

**Series 11.** Legal Cases and Firm Letter Press Copy Books. Ca. 1855-1900. 7 boxes, 5 volumes.

Cases files include briefs, counter briefs, records of trials, notes and memoranda, and, in the Morrison will case, shorthand notebooks.

The firm letter press copy books, to which consecutive numbers have been assigned, concern business of the firms [William] Wallace & Harrison and Harrison & [William P.] Fishback, and some individual business of Harrison and of Fishback as Pension Agent. The user is cautioned that the publication of the contents of this microfilm may be construed as constituting a violation of literary property rights. These rights derive from the principle of common law that the writer of an unpublished letter or other manuscript has the sole right to publish the contents thereof, unless he affirmatively parts with the right; the right descends to his legal heirs regardless of the ownership of the physical manuscript itself. It is the responsibility of an author or his publisher to secure the permission of the owner of the literary property rights in unpublished writings. No dedication of literary property rights is known to have been made.

## STATEMENT OF THE LIBRARIAN OF CONGRESS

*The following statement on the Presidential Papers Program appears on the microfilm of each group of papers:*

The personal papers of 23 Presidents of the United States are in the Library of Congress. Under an Act of Congress (Public Law 85-147) approved August 16, 1957, the Librarian of Congress was directed to arrange, microfilm, and index these papers. The purpose of the legislation was to provide greater security through the wide distribution of copies of the microfilm and to facilitate the use of the papers by scholars and others. An appropriation for this work was made in August 1958, and the project was begun the same month. Presidents whose papers are in the Library are:

George Washington	James K. Polk	Chester A. Arthur
Thomas Jefferson	Zachary Taylor	Grover Cleveland
James Madison	Franklin Pierce	Benjamin Harrison
James Monroe	Abraham Lincoln	William McKinley
Andrew Jackson	Andrew Johnson	Theodore Roosevelt
Martin Van Buren	Ulysses S. Grant	William H. Taft
William H. Harrison	James A. Garfield	Woodrow Wilson
John Tyler		Calvin Coolidge

The size and complexity of the groups of Presidential papers vary greatly. One group of Presidential papers contains fewer than 1,000 documents and is arranged in a simple chronological order. Another contains about 500,000 documents and will require division into a number of series with different internal arrangements. A specific statement about each group of Presidential papers follows this general statement.

The user is advised that indexes (largely of correspondents in the papers) will be prepared and published in book form. Announcements concerning the availability of the indexes as well as of microfilms of other groups of Presidential papers will be made from time to time. Inquiry may be made of the Chief of the Manuscript Division concerning future publication plans.

L. QUINCY MUMFORD,  
*Librarian of Congress.*
