# NOTE ON SOURCES

The documents in this publication are from Record Group 59, Records of the Department of State, Central Files: Palestine/Israel. The decimal numbers microfilmed include: 784.00–784.5411, 784A.00–784A.62, 884.00–884.552, 884A.00–884A.574, 984.61–984.8294, and 984A.00–984A.8311. These documents can be found at the National Archives, Washington, D.C.

## EDITORIAL NOTE

University Publications of America (UPA) has microfilmed these files in their entirety. Only duplicate copies of documents have been excluded from this micropublication. Citations to documents enclosed by brackets were misnumbered by the Department of State. UPA has filmed these documents as they are filed at the National Archives. The correct decimal number with the correct subject citation is enclosed by the brackets.

The area that is known as Palestine was created by the League of Nations on July 22, 1922, as a British mandated territory. Prior to that time, the region had been a province of the Ottoman Empire. The Palestine mandate occupied roughly the same boundaries as modern Israel, including the occupied territories. In this collection, the U.S. State Department uses the names of Palestine (country number 84) and Israel (country number 84A) interchangeably. As a general rule, however, the State Department uses Palestine when referring to matters relating to the Arab inhabitants of this area, and it uses Israel when referring to matters affecting the Jewish state founded in 1948.

# INTRODUCTION

The documents in this microfilm collection have been obtained by University Publications of America (UPA) from the Central Files of the General Records of the Department of State, Record Group 59. These records are under the jurisdiction of the Legislative and Diplomatic Branch of the Civil Archives, National Archives and Records Administration, Washington, D.C., where they are housed. UPA has published these records in cooperation with the National Archives.

The Central Files of the General Records of the Department of State contain the bulk of the records accessed in Record Group 59—some 82 percent of this Record Group, according to a National Archives estimate. The Central Files contain all instructions sent to and all correspondence received from diplomatic posts abroad by the Department of State. In addition, most of the State Department's internal documentation as well as correspondence between the State Department and other federal departments and agencies, Congress, and private individuals and organizations are included in the Central Files.

The records filmed from the Central Files for this collection are from the Internal Affairs subject classification of the Central Files. They include telegrams, airmails, instructions, inquiries, studies, memoranda, situation reports, translations, special reports, plans, and official and unofficial correspondence.

These documents illustrate Palestine's and Israel's political system, government, judiciary, laws, military, customs, economy, finance, agriculture, natural resources, industry, communications, and media. Because of the broad scope of these records, they both supplement and complement the coverage offered by the Department of State's own *Foreign Relations of the United States* series.

This collection has been microfilmed directly from the records held at the National Archives, Washington, D.C. As such, the records reproduced herein represent the best available copies. UPA is proud to make this collection available for your research.

## **ORGANIZATION OF THE DEPARTMENT OF STATE'S DECIMAL FILING SYSTEM**

From 1910 to 1963, the Department of State used a decimal classification system to organize its Central Files. This system assembled and arranged individual documents according to their subject with each subject having been assigned a specific decimal code.

The decimal system from 1955 to 1959 consists of ten primary classifications numbered 0 through 9, each covering a broad subject area.

**CLASS 0: Miscellaneous.**

**CLASS 1: Administration of the U.S. Government.**

**CLASS 2: Protection of Interests (Persons and Property).**

**CLASS 3: International Conferences, Congresses, Meetings, and Organizations.**

**CLASS 4: International Trade and Commerce. Trade Relations, Customs Administration.**

**CLASS 5: International Informational and Educational Relations. Cultural Affairs. Psychological Warfare.**

**CLASS 6: International Political Relations. Bilateral Treaties.**

**CLASS 7: Internal Political and National Defense Affairs.**

**CLASS 8: Internal Economic, Industrial, and Social Affairs.**

**CLASS 9: Other Internal Affairs. Communications. Transportation. Science.**

For this publication, University Publications of America (UPA) has micro-filmed the documents contained in CLASSES 7, 8, and 9. Within these classes each subject is defined by a decimal file number. The decimal file number is followed by a slant mark (/). The number after the slant mark (/) refers to the date on which the document was generated. Documents within each decimal file number are arranged in chronological order. The entire decimal file number is stamped on the right side of the first page of every document.

This class is concerned almost exclusively with the internal matters of individual countries. The class number (7, 8, 9) is followed by the country number. The number following the decimal point indicates major classifications. The date after the slant mark (/) identifies the individual document.

**CLASS 7. Example, 784.13/9-255**

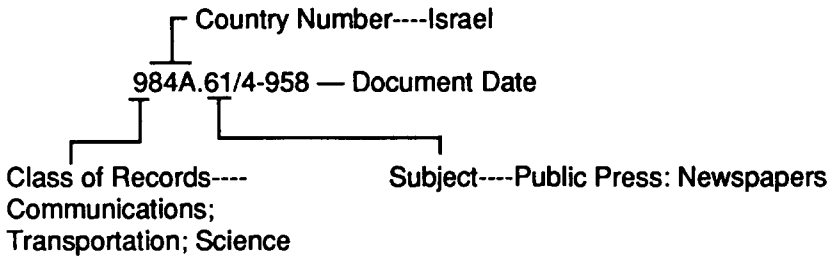

784.13/9-255 indicates a document dated September 2, 1955, relating to the cabinet of the executive branch of government (13) in Palestine (84).

**CLASS 7. Example, 784A.13/1-1555**

784A.13/1-1555 indicates a document dated January 15, 1955, relating to the cabinet of the executive branch of government (13) in Israel (84A).

**CLASS 9. Example, 984A.61/4-958**

984A.61/4-958 indicates a document dated April 9, 1958, relating to newspapers (61) in Israel (84A).

**Note:** For the convenience of the researcher, whenever the pages represented by a specific classification number total more than fifty but less than 250, a breakdown of the material by year is provided. Decimal files whose pages total more than 250 are listed by month and year.
